

 **POSTURITE**[®]
Because Health Matters

2015/2016

Ian Fletcher-Price
CEO

Office work can, quite literally, be a pain in the neck. I should know because 25 years ago I quit my desk job in the City after suffering a series of debilitating neck and shoulder problems.

I retired to my mother's garage to design and build the product that was to launch Posturite – an adjustable writing slope and document holder that enabled me to work pain-free.

A quarter of a century later that original product, the Posturite Board, is still in our catalogue. You'll find it on page 45. But now, of course, it is joined by a multitude of other products and services designed to help people work and live more comfortably, healthily and safely.

I take great pride in the fact that, as we approach our 25th anniversary, Posturite is now firmly established as the pre-eminent UK-wide provider of ergonomic furniture and accessories, and the only company able to offer organisations a single source solution for all of their health, safety and First Aid equipment and training needs.

Thousands of companies and public authorities regularly turn to Posturite to provide them with the expertise and equipment they need to help protect their employees against back problems and work-related upper limb disorders.

That they do so is due to our excellent relations within the industry, our careful attention to detail and our total commitment to quality of product and service.

This includes a 75-strong team of local account managers and executives based throughout the UK – many of them graduates in human biomechanics and all of them trained DSE assessors – who look after work station assessments, provide advice and training on ergonomic products, and ensure that chairs, desks and other items of equipment are properly adjusted for the individual's personal comfort once delivered.

It's a unique offering that has helped to reduce absenteeism, increase productivity and improve staff retention in scores of UK businesses. And it provides the sort of quantifiable performance and return on investment improvements that are essential when budgets are under scrutiny.

Don't hesitate to contact us if you're at all unsure about which of our products and services will best suit your needs. And please make sure that you pay regular visits to our website – www.posturite.co.uk – to check for new products and avoid missing out on our regular special offers.

We look forward to working with you.

ASSESSMENT SERVICES.

Employees are a huge asset to any business. Maintaining a happy, healthy, motivated and productive workforce is something that all businesses strive for. It pays to care for or nurture your staff – generally any investment you make is repaid with increased productivity.

Since 1991, Posturite has been helping businesses improve the health and productivity of their workforces. As the UK's largest workplace ergonomics company, we have carried out tens of thousands of DSE and ergonomic assessments over the years. We have listened and reacted to feedback and gradually extended what we do to meet the wide ranging requirements of our customers.

We offer a number of different grades of assessment, making it easier for you to establish what your staff need to ensure that they're as productive and comfortable at work as possible.

ASSESSMENT SERVICES.

Ergonomics is at the root of everything we do.

GRADE 1 - DSE PROBLEM SOLVING ASSESSMENT WC73

Suitable for an individual who has been recognised to be experiencing musculoskeletal discomfort or has completed a DSE assessment which has highlighted areas of concern. Undertaken by Posturite employees trained in DSE assessments with extensive ergonomic product knowledge.

A summary, with quote for any recommendations will be submitted following the assessment.

GRADE 1A - BESPOKE DSE PROBLEM SOLVING ASSESSMENT WC74

A bespoke DSE problem solving assessment is also suitable for an individual who has been recognised to be experiencing musculoskeletal discomfort or has completed a DSE assessment which has highlighted areas of concern. The assessor will follow a format and complete a report template as agreed between the client and Posturite Account Manager.

Undertaken by Posturite employees trained in DSE assessments with extensive ergonomic product knowledge.

GRADE 2 - DSE COMPLIANT ASSESSMENT WC75

A fully compliant DSE assessment as required by the DSE regulations, undertaken by a Posturite employee trained in DSE assessments. Following the assessment, a completed DSE assessment form highlighting any areas of concern and providing recommendations will be submitted. A quote for any equipment which may be of benefit will be submitted with the report.

GRADE 2A - HOME WORKERS DSE COMPLIANT ASSESSMENT WC76

Undertaken by a Posturite employee trained in DSE assessments. This assessment is very similar to the DSE compliant assessment but covers some of the specific issues of home working. These include dimensions of the work area, whether electrical items are labelled as safety tested and lighting levels. Following the assessment, a completed DSE assessment form highlighting any areas of concern and providing recommendations will be submitted. A quote for any equipment which may be of benefit will be submitted with the report. If required, a photograph of the workstation will be included.

Portable Appliance Testing (PAT) during this assessment is available as an option.

For pricing or if you're unsure of which assessment is right for you, speak to your Account Manager and they'll advise which grade is best suited to your needs.

GRADE 3 - SPECIALIST DSE RELEVANT ASSESSMENT WC51

Undertaken by either a medical professional with an in-depth knowledge of musculoskeletal issues and ergonomics training, or a qualified Ergonomist with specialist knowledge in workstation issues. This grade of assessment would be requested for complicated cases requiring a holistic approach and addressing any stated musculoskeletal and/or workstation issues. The resulting report will provide a detailed overview of the findings along with any recommendations for change or potential equipment intervention that could be made to assist the user at their workstation. No physical examination would be needed, however measurements and photographs will be taken to accompany the report with permission of the end-user. Written consent for the report to be sent to the company will be required from the employee prior to this assessment being carried out.

GRADE 3A - INVOLVED SPECIALIST DSE RELEVANT ASSESSMENT WC53

Undertaken by either a medical professional with an in-depth knowledge of musculoskeletal issues and ergonomics training, or a qualified Ergonomist with specialist knowledge in workstation issues. This grade of assessment would be needed for DSE workstation related issues where the individual's issues are more complex, where meetings with Line Managers and/or HR staff may be required to support the assessment. The Grade 3A assessment may also be required for employees with these more complex issues who operate at multiple or non-standard workstations. No physical examination would be needed, however measurements and photographs will be taken to accompany the report with permission of the end-user. Written consent for the report to be sent to the company will be required from the employee prior to this assessment being carried out.

DRIVER COMFORT ASSESSMENT WC52

Undertaken by either a medical professional with particular knowledge of musculoskeletal issues or a qualified ergonomist. This type of assessment would be appropriate for an individual complaining of discomfort whilst driving a particular vehicle. The individual will be observed in their vehicle and their issues discussed with them to try and identify possible factors influencing the discomfort reported. The assessor will then work with the individual to try to improve the situation using available adjustments of the vehicle. A report will be written outlining any changes made and any further recommendations. NB. This is a stationary assessment not a driving assessment, no recommendations of specific alternative vehicles are possible.

ERGONOMIC CHAIRS.

WARNING!

Your chair could damage your health

New cases of musculoskeletal disorders (MSDs) are on the rise again after several years of improvement.

Figures from the 2014 Labour Force Survey, released by the HSE, show that new cases of work-related MSDs shot up from 141,000 to 184,000 between 2011/12 and 2013/14.

GPs who report newly diagnosed cases to Manchester University's Centre for Occupational and Environmental Health (COEH) cite keyboard work as one of the top three tasks associated with the development of MSDs. This not only takes a massive personal toll in terms of pain and suffering, but also costs business and industry billions of pounds each year in lost productivity.

Yet many MSDs could be avoided if companies invested proactively in adjustable, ergonomic chairs, properly set up to meet the needs of individual users.

This is what HSE Board Member Professor Sayeed Khan has said on the subject:

"Ergonomic solutions to workplace design can help prevent back injuries, stop existing conditions being exacerbated and help sufferers feel more comfortable. They can also improve conditions for everyone. Rethinking a process, system or a workplace to make it easier for somebody returning to work may improve efficiency and conditions for the rest of the team."

All Posturite chairs are designed to maintain the health and efficiency of desk-based workers. We have partnered with many of the world's leading designers and manufacturers to ensure our customers have the biggest and best choice of posture-improving chairs to suit all budgets.

If you are looking to buy a number of chairs for your organisation, our Office Environments division offers a range of contract seating options. See page 82.

HÅG CAPISCO.

The definition of innovation. No other chair is so well suited to adjustable workstations.

8105
Stool

8106
Seat and Back

8107
Seat and Back w/ Headrest

CHOOSE YOUR CHAIR

We have long been advocates of active sitting. The HÅG Capisco features cutouts in the seat pan for your legs to hang down, allowing you to evenly distribute your weight and to lean down with ease. The cutouts also facilitate proper pelvic position (tilted slightly forward) which allows your back to form a natural S-shape curve.

On a Capisco, you can sit equally comfortably facing forward or turned to the side and even use the backrest as a chest support. The saddle seat can be adjusted between low and high working positions - all the way up to standing - enabling you to be more dynamic in your movements while maintaining balance. Tilt resistance is adjustable and lockable. Other colours available on request.

0502501	Capisco 8105	£261.00
0502101	Capisco 8106	£661.00
0502201	Capisco 8107	£781.00

CUSTOMISE

8020
Fabric Seat and Plastic Back

CHOOSE YOUR CHAIR

HÅG Capisco Puls is based on the legendary Capisco saddle-seat chair. The starting point is an in-depth understanding of the body and our need for constant motion. The result: a new office chair specially developed for people who work in active, modern office environments. Capisco Puls is a modern and flexible office chair – the latest evolution in form, function and comfort. It's a winner in terms of design and the environment, and its light and dynamic design makes it perfect for a new generation of users, with options suitable for general office and counter height work and cleanroom applications.

The seat has an integrated cushion for improved comfort and can be adjusted between low and high working positions, all the way up to standing, enabling you to be more dynamic in your movements while still balanced. The seat height, seat depth and back height can also be adjusted.

The Capisco Puls 8001/8010 comes with a plastic seat with an integrated cushion, the Capisco Puls 8002/8020 has an extra cushioned fabric seat.

0508001	Capisco Puls 8001	£192.00
0508101	Capisco Puls 8010	£271.00
0508002	Capisco Puls 8002	£274.00

Visitor Chair

CHOOSE YOUR CHAIR

Key words to describe the HÅG H04 are balance, movement and freedom. Balance because it provides the best starting point for any movement, freedom because it permits unrestricted movement, allowing you to focus on your work. With a traditional but up-to-date design, this chair is perfect for all offices, large or small.

The H04 is available in 4 different options and comes with a 150 mm gas lift, footbase in silver and castors for carpeted floors. Height and width-adjustable armrests and headrest are optional. Other colours available on request.

H04 4100 has a low back and a small seat.

H04 4200 has a low back.

H04 4400 is the same as the H04 4200 but has a medium back.

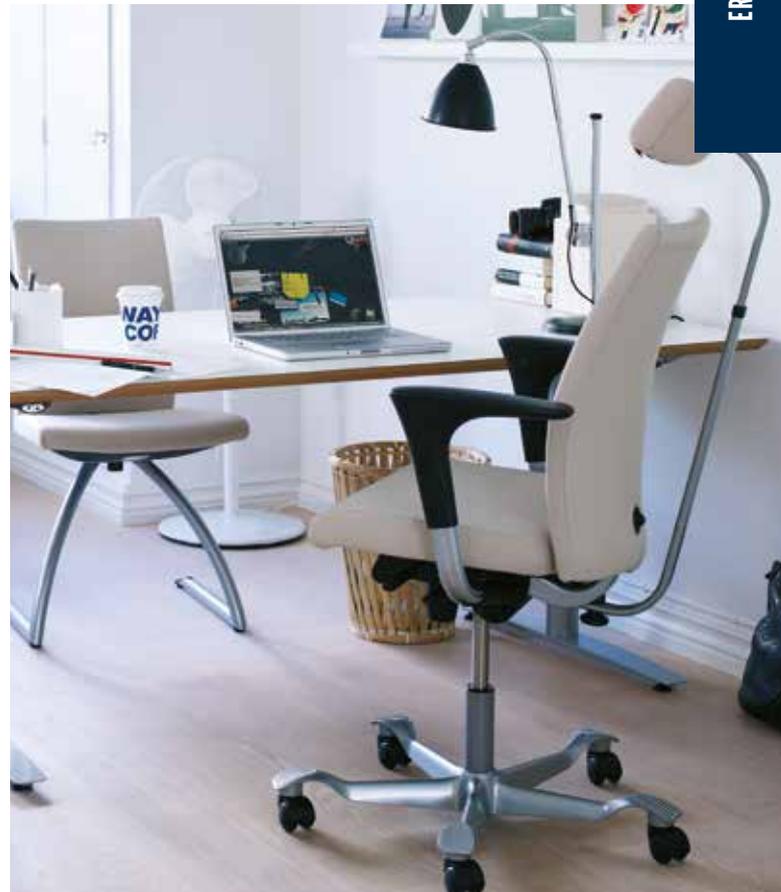

H04 4600 is the same as the H04 4200 but has a high back.

ERGONOMIC CHAIRS

CHOOSE YOUR CHAIR

The most sustainable task chair collection in the industry, compared to other chairs with similar functionality and comfort.

The SoFi features the Balanced Movement Mechanism, inBalance™ which answers to your slightest move and keeps you in continuous, balanced motion.

As an optional extra, we recommend the innovative HÅG SlideBack Armrests, which provide optimal comfort and can be pushed back to allow you to sit sideways or you can easily transform the armrests into generous elbow rests. The levers and handles that control the SoFi's seat height and depth are easy to find and to adjust.

All models come with a fully upholstered back and seat, adjustable lumbar support, tilting resistance and a 165mm gas lift as standard. Other colours available on request.

Upholstery on Seat and Back

9832 - 5 star Footbase
Upholstery on Seat and Back

CHOOSE YOUR CHAIR

The built-in rocking mechanism inspires variation and movement which in turn enhances circulation, mental focus and performance.

The HÅG Conventio Wing is made from light materials that can cope with rough treatment. Minimum maintenance requirements make the chairs particularly well suited to use in schools, universities, libraries, canteens, cafés, meeting rooms, hotels and conference centres.

They can be stacked 10-15 chairs high. Placing out neat rows of chairs is made easy with the simple linking mechanism.

The 5 star base version is height adjustable and provides support for alternative positions of the feet. Conventio Wing 9812, 9822 and 9832 are models with a 5 star base.

9792000	KAB Controller 24hr	£822.00
---------	---------------------	----------------

HEIGHT ADJUSTABLE SIT/STAND DESKS.

Get up and get healthy

Reams of research over the last few years has linked too much sitting with serious health conditions such as diabetes, heart disease, obesity and even cancer.

Yet we continue to do it. According to Professor James Levine of the Mayo Clinic in America, we typically now sit for 13 hours a day, sleep for eight and move for just three.

It's too much. And our bodies aren't designed for it. So it's about time we all stood up for our health a bit more, especially at work.

Here's what another expert, Dr Mike Loosemore of the Institute of Sport, Exercise and Health, has to say on the subject:

"Just standing up is good for you. If I worked standing up for three hours a day, five days a week, that would be the equivalent of running ten marathons a year."

Posturite's height adjustable, sit/stand desks are designed to allow you to change regularly and easily between a seated and a standing working position without interrupting your workflow.

The desk can be heightened or lowered at the simple turn of a handle or push of a button. Work and equipment can stay exactly where it is. It couldn't be simpler.

Sales of our sit/stand desks have soared in the last 12 months as more and more data has emerged to show just how beneficial standing up for part of the day can be to your health.

So don't just sit there. Get up and get healthy.

Bench System

DESKRITE EVOLVE

DeskRite Evolve is the new bench system of affordable electric height adjustable desking for the office.

Based on the existing DeskRite range, Evolve allows you to simply and easily configure your office from just 2 desks up to as many as you need.

By using a shared frame, incorporating full cable management, desk screens and optional electrical packages, we now have a system of height adjustable desks for your project, previously unavailable at this price. The desk tops are 25mm thick, and come in a range of sizes and finishes (including MFC and Veneer) to suit your requirements. As ever, we can help with your space planning to ensure that you make the most of your office space, while ensuring that your staff are not only comfortable and productive, but healthy too.

With built in safety features, which prevents 'trapping' between adjacent height adjustable surfaces, the desk complies with all the necessary safety standards.

The choice of screen finishes is almost unlimited, including magnetic, pinnable, acoustic or standard screens. And the fabric choice is entirely up to you.

With the proven health and productivity benefits of height adjustable now more compelling than ever, DeskRite Evolve is now an easy choice for you and your business.

VARIDESK.

Height-adjustable desking without the cost of a new desk.

Original
Single Platform

Plus
Independent Keyboard Tray

VARIDESK

VARIDESK is a range of height-adjustable desktop platforms that allow you to transform your workspace by switching from a sitting position to a standing position, and back, easily. The VARIDESK sits atop your existing desk, making it one of the least disruptive and most cost effective methods of obtaining sit-stand functionality for your workstation.

- Free companion app gives you sit and stand alerts
- Switches from sitting to standing position in just 3 seconds
- Ergonomic design adjusts to any user's height
- Fits most desks in any office or cube
- Spring-assisted lift
- Fully assembled; easy set-up

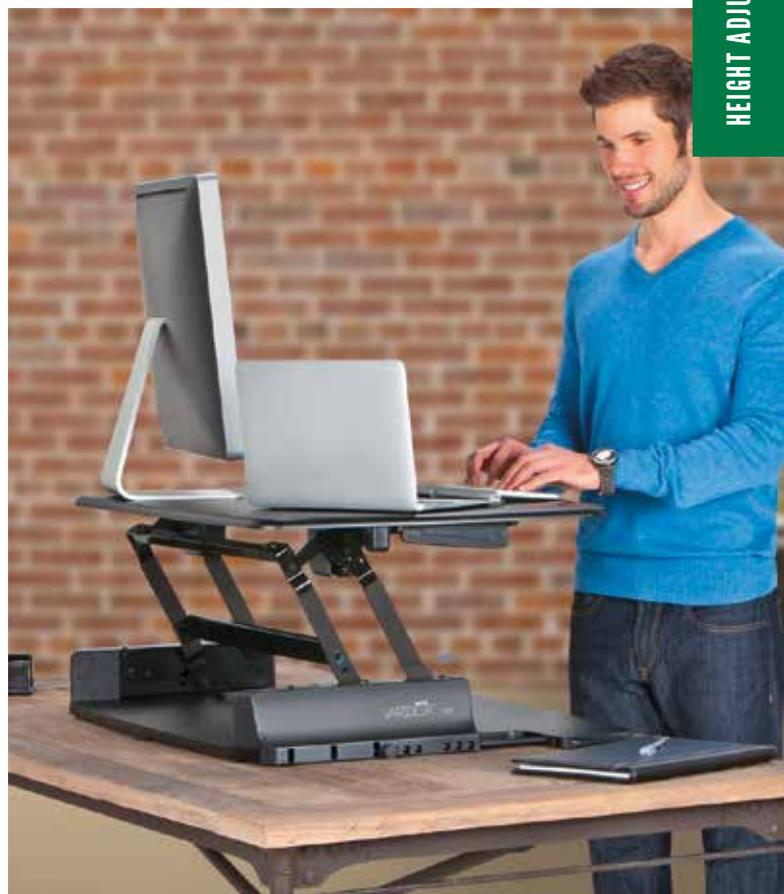

SINGLE/PRO

VARIDESK comes in two sizes – Single (one monitor), and Pro (dual monitor). It requires no assembly, no fixed installation and sets up in under five minutes.

SINGLE/PRO PLUS

The VARIDESK Plus comes in two sizes – Single (one monitor), and Pro (dual monitor). The lifting keyboard tray ensures ergonomic comfort for your arms and shoulders whether sitting or standing.

8873001	Single (One Monitor)	£262.50
8873002	Pro (Dual Monitor)	£279.17
8873004	Single Plus (One Monitor) w/ Keyboard Lift	£271.00

ERGONOMIC MICE & KEYBOARDS.

Don't let technology become a pain

Technology has dramatically changed the way we work. But our bodies are the same as they have always been.

So when choosing a computer mouse or keyboard, you need one that won't put undue strain on your arms, wrists, hands, neck and shoulders. Painful work-related upper limb disorders are most often the result of spending too long working with standard mice or keyboards.

An ergonomically-designed mouse will help shield you from potential strain injuries and improve your productivity. A vertical device eliminates the need for forearm twisting and, in the case of the Posturite Penguin, allows you to switch hands regularly throughout the working day, avoiding overuse of the dominant hand.

Trackball, roller mouse and centrally pointed input devices all reduce or eliminate the need for sideways or reaching arm movements and keep hands in a more natural position.

The design of the standard computer keyboard, with its right-sided integral number pad, forces users to make uncomfortable stretching movements. Fortunately there are now plenty of alternatives.

Compact or short keyboards allow you to position the mouse much closer to you. Separate numeric pads can always be added if required. Our Number Slide keyboard offers the best of both, acting as a compact when the integral number is pad hidden away and as a conventional keyboard once it is exposed. Split keyboards are probably the most ergonomic, promoting a more natural positioning of the arms and hands and reducing fatigue.

Keyboards and mice are the devices you'll use the most, so it's important to get the right ones for your needs. If you're not sure which to choose, contact us for expert advice.

Wireless

PENGUIN AMBIDEXTROUS VERTICAL MOUSE

The Penguin offers computer users new standards of protection against Work Related Upper Limb Disorders. It provides a simple but revolutionary solution to many of the common health problems associated with repetitive use of the dominant hand by allowing both hands to share the workload. The base platform reduces the grip required to position the device without any loss of accuracy.

- Naturally comfortable - the vertical alignment encourages a more ergonomic operating position
- Ambidextrous - 'bow-tie' switch for right or left-handed use
- Easy-glide symmetrical base - hand rests on mouse to encourage the use of larger muscles in the fore/upper arm to manoeuvre
- Performance laser tracking - precision laser for accurate tracking
- Variable DPI [400-600-800-1200] - adjustable pointer speeds
- Precision scroll wheel - for fast, accurate document scrolling including an auto-scroll feature
- Wired and wireless (rechargeable) versions available
- Silver Seal antimicrobial protection

9820098	Wired - Small	£49.95
9820100	Wired - Medium	£49.95
9820101	Wired - Large	£49.95

9820102	Wireless - Medium	£64.95
9820103	Wireless - Large	£64.95
9820201	Penguin Mouse Mat	£6.50

Mouse Mat

Extremely thin with a gentle self cling reverse to stop it shifting across the desk, the mat eliminates the differences that desk surfaces might have on mouse performance.

Antimicrobial Product Protection

Protected with Silver Seal, an antimicrobial, fungistatic agent which makes the product greener and fresher by inhibiting the growth of microbes, odour-causing bacteria, mould, mildew and fungi on the product's surface.

Which size?

The Penguin mouse is available in three sizes. To choose the correct one for you, measure your hand from the first crease on your wrist to the tip of your middle finger.

SMALL	0-16 cm (0-6 ins approx)
MEDIUM	16-18 cm (6-7 ins approx)
LARGE	18 cm + (7 ins + approx)

EVOLUENT VERTICALMOUSE 4

Supports your hand in an upright neutral position that avoids forearm twisting.

The shape is sculpted for uncompromised comfort and easy-to-reach programmable buttons. No finger contortions are needed to operate the buttons.

Many users, including doctors and physical therapists, say the VerticalMouse provides superior comfort, relieving their wrist pain.

SEAL SHIELD MEDICAL GRADE MICE & KEYBOARDS

Keeping Infection Strictly Under Control

These amazing Seal Shield antimicrobial, dishwasher proof keyboards and mice are specially designed to be used in laboratory or medical environments. Featuring laser etched keys, special seals and solid gold USB connectors to avoid corrosion, the entire range can be totally immersed in water or even sterilised in a dishwasher - with the average keyboard harbouring food detritus and a host of germs, these products can help protect against spread of infection.

Silver Storm Medical Grade Scroll Mouse

Available in Wired (White) and Wireless (Black) versions.

Silver Seal Medical Grade True Type Keyboard

The original medical grade keyboard.

- Dimensions (WxDxH): 460 x 165 x 35 mm

Clean Wipe Medical Grade Mini Keyboard

The Clean Wipe keyboard is compact and slimline and features a transparent, removable silicone cover which can be wiped clean.

- Dimensions (WxDxH): 345 x 115 x 30 mm

Seal Touch Silicone Keyboard with Touch Pad

The all-in-one silicone keyboard features a built in touch pad conveniently removing the need for a separate mouse.

- Dimensions (WxDxH): 340 x 225 x 12 mm

8886006	Silver Storm White Scroll Mouse	£23.95

Dishwasher Safe

Seal Shield offers the most complete line of waterproof input devices. The range of waterproof keyboards and mice are washable, fully submersible, and dishwasher safe.

Silver Seal™ Technology

Additionally, Seal Shield products feature Silver Seal™ Technology for antimicrobial protection of the products' surfaces from mold, mildew, fungi and odour causing microbial bacteria. Seal Shield products are the ideal solution for healthcare infection control, corporate, hospitality, marine, industrial and food service environments.

Number pad slides out

NUMBER SLIDE KEYBOARD

Compact keyboard with a fully functioning, integral number pad that slides out from the right when you need it and away when you don't. This prevents users over reaching for the mouse thus maintaining an inline working posture.

- Available in wired or Bluetooth
- Silver Seal antimicrobial protection
- Soft touch scabble style keys

Mouse not included

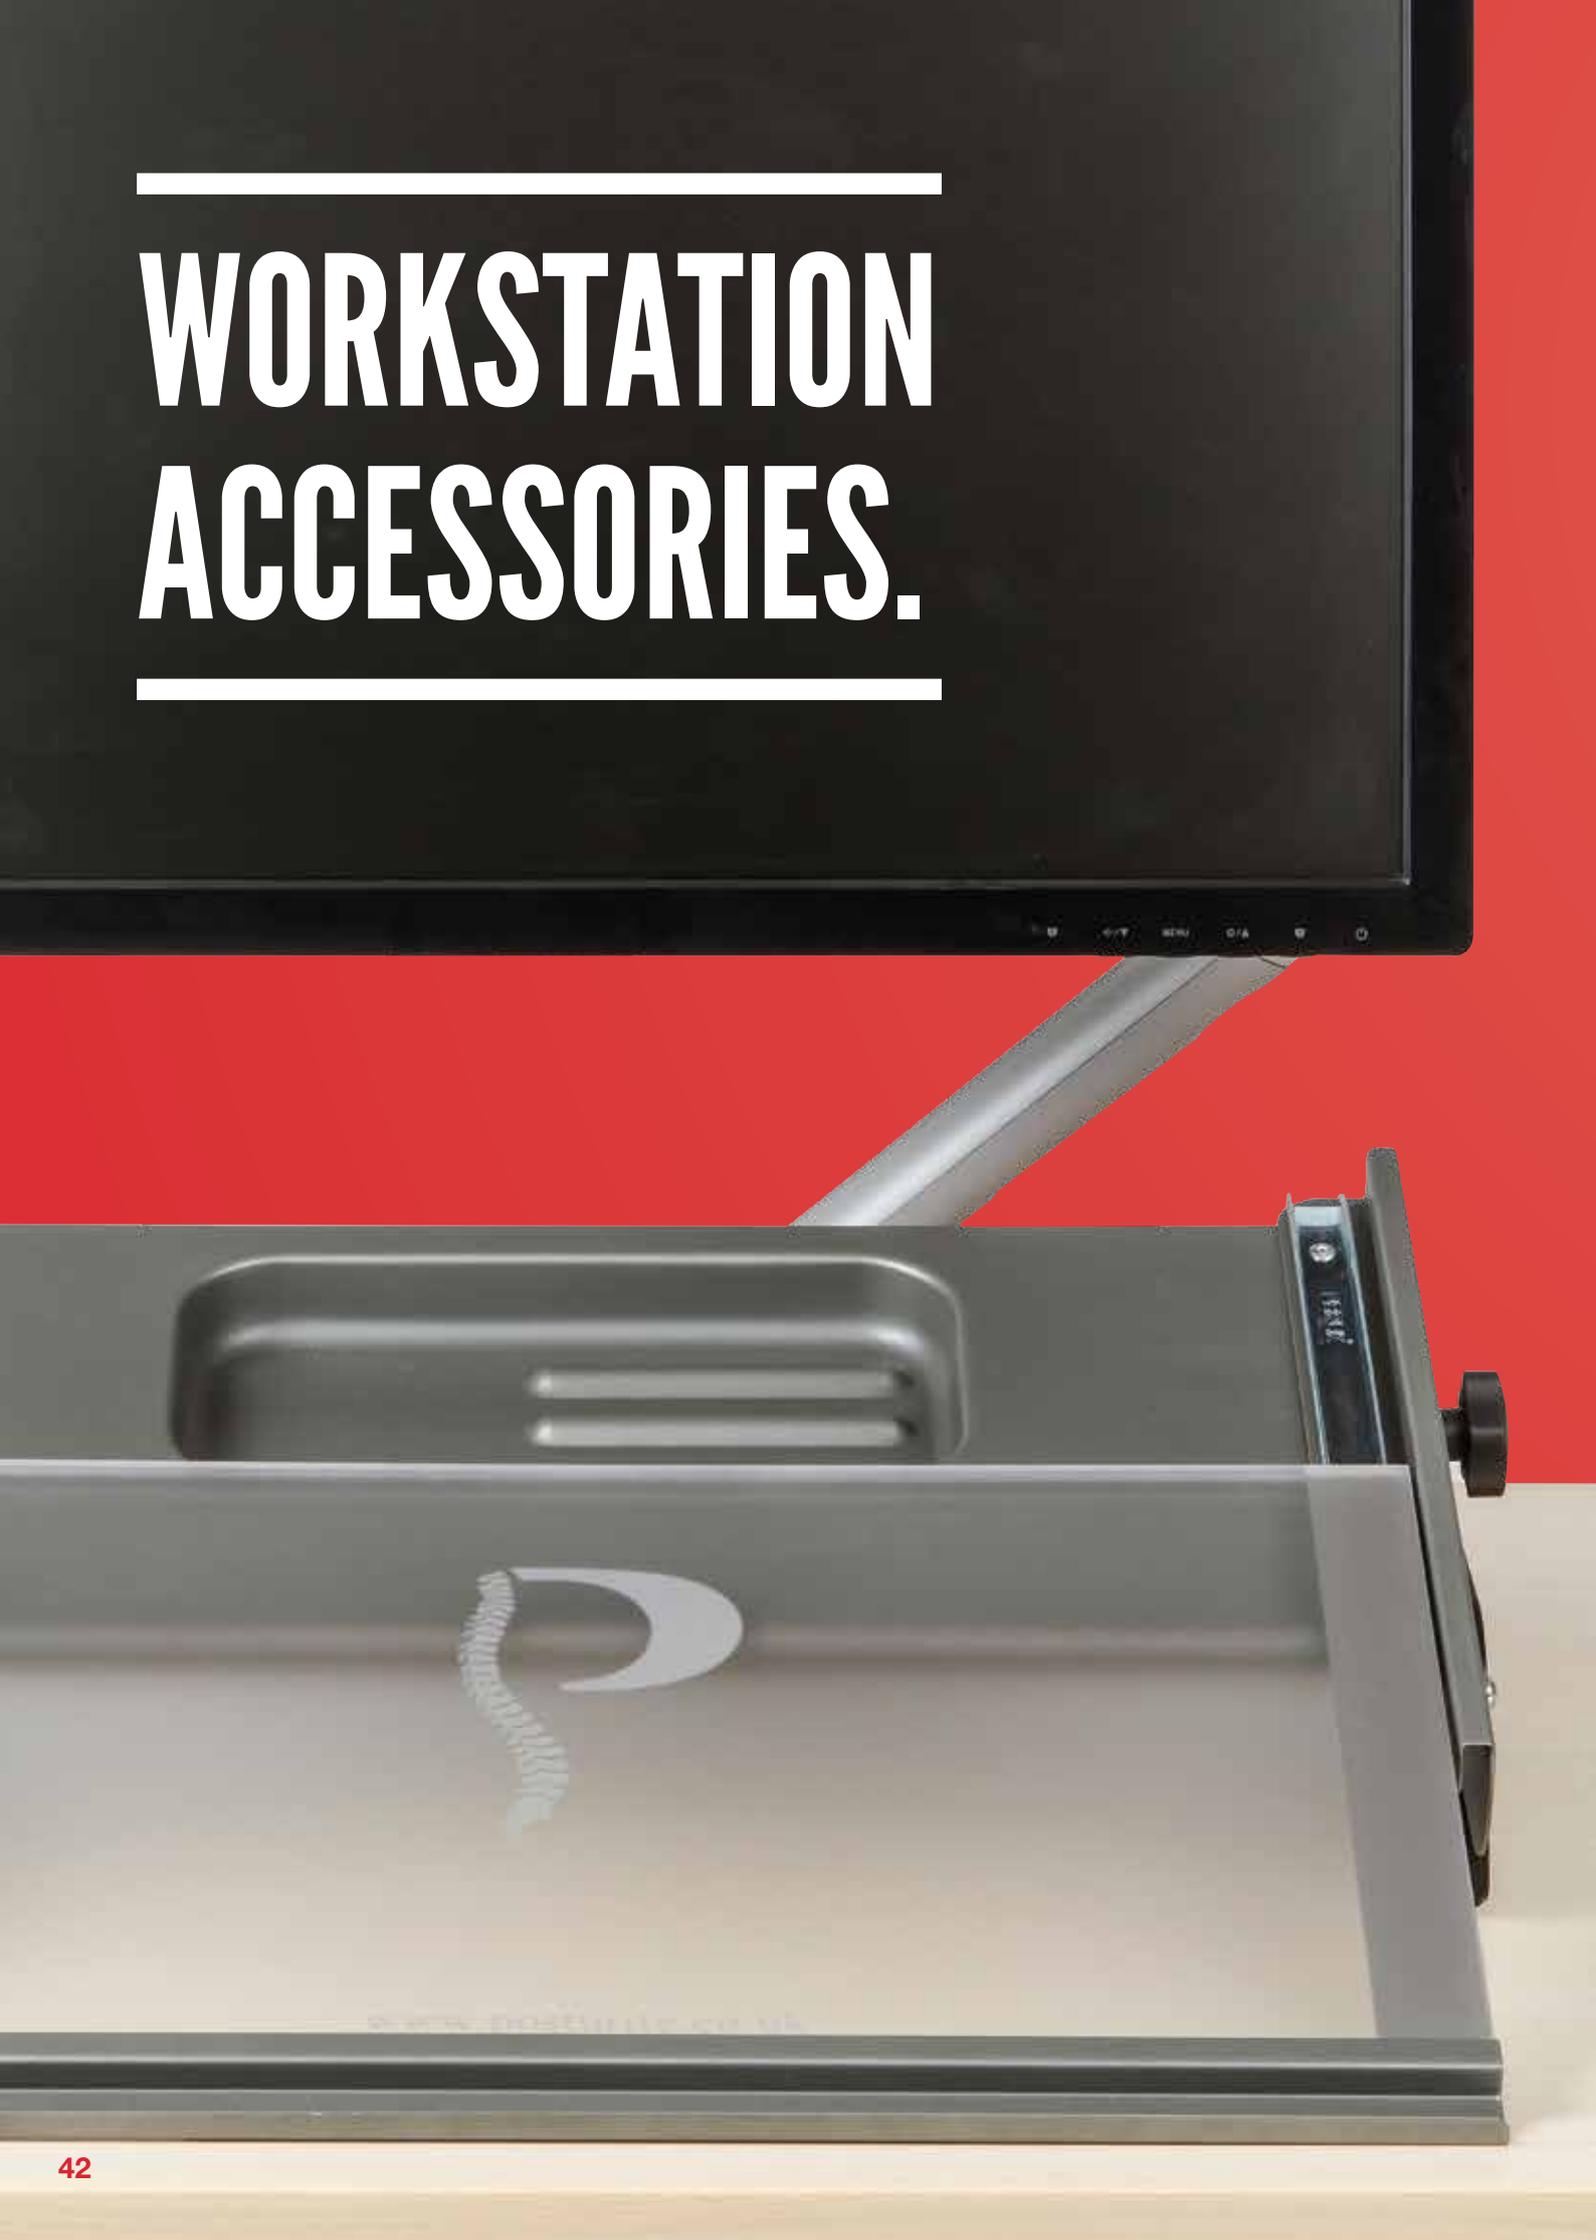

MOUSEBEAN

This simple, ergonomic design can help protect against RSI, Carpal Tunnel Syndrome and painful disabling problems.

3502 MouseBean **£7.95**

WORKSTATION ACCESSORIES.

Avoid the twists and turns of everyday working life

Each year, thousands of new cases of work related upper limb disorders require some form of specialist intervention. They cost the country billions of pounds in lost productivity... and individuals a lot of pain.

Many of these could be avoided by investing in simple workstation accessories that help eliminate the everyday twists and turns of working life that are so often the cause of the problem.

Document holders and writing slopes, for example, allow you to read and type at your workstation without twisting your neck and back and putting undue strain on your body.

Our Chief Executive can vouch for their effectiveness. He designed the original Posturite Board 25 years ago as a way of overcoming his own neck pain. Along with our hugely popular MultiRite two-in-one document holder and writing slope, it's still one of our best-sellers.

Big advances in wireless technology are also setting new standards in wireless desk phone communications. The latest headsets are not only comfortable to wear but also allow you to increase your productivity and multi-task easily while talking.

They also have the added advantage of letting you stand up and move around without interrupting your conversation – particularly important for anyone who would normally spend most of their working day seated.

New workstation accessories are being added all the time so keep in touch with our website to ensure you don't miss out on the latest products.

VOYAGER LEGEND BLUETOOTH HEADSET

The Voyager Legend is an intelligent Bluetooth headset with liquid repellent nano-technology and a host of other features.

7025132	Voyager Legend	£76.59
---------	----------------	---------------

MONITOR ARMS.

Call to arms for computer screens

Having your computer monitor at the wrong height is a common cause of neck and shoulder pain. Ideally the screen should sit directly in front of you at arm's length, with the top level with your eyes.

Monitor arms offer the most ergonomically efficient way to ensure your screen is always at the correct height and angle. They also have the added advantage of freeing up valuable desktop space.

Our monitor arms fit 99% of modern flat screens and most can be adjusted for height and angle to increase comfort, reduce glare and achieve ideal focal length. A standard quick release mechanism allows the monitor to be replaced speedily and efficiently.

Visit our website to view the complete range of monitor solutions.

CBS FLO.

Flo's unique design offers a range and ease of movement that sets it apart from all other monitor arms.

Flo
Single Monitor

Flo
Laptop Mount

Flo Dual
Monitor/Tablet Configuration

Flo Plus Dual
Dual Monitor Support

CHOOSE YOUR ARM

The Flo technology support system offers a range of solutions designed to meet the technology challenges in the commercial office environment. Be it single or dual screen, large screen formats or new technologies such as tablets or thin clients, the Flo family provides an unrivalled ergonomic solution. And as the market leader in its class, Flo is more environmentally friendly, better looking, and a better performing product than any of its competitors.

Flo

Flo's primary purpose is to support a single screen/monitor but, due to its ingenious design, can be easily customised to support a laptop, tablet, or thin client.

1820203	Flo Arm Monitor Arm	£128.00
1820212	Flo Top Mount Clamp Fixing	£25.00
1820210	Flo Top Split Mount Clamp Fixing	£25.00
1820211	Flo Through Desk Fixing	£15.00

FIXING

Flo Dual

Use two Flo arms with a single desk clamp to support a screen alongside a tablet or laptop, or dual screens if you prefer.

1820321	Flo Dual Monitor Arms (x2)	£256.00
1820319	Flo Dual Top Mount Clamp Fixing	£49.00
1820318	Flo Dual Split Clamp	£49.00

FIXING

Flo Dual Plus

Flo Plus Dual is designed to support dual monitors to a maximum combined weight of 18kg. It allows two widescreens of up to 24" in size to be mounted in either portrait or landscape position.

1820199	Flo Dual Plus Monitor Arm w/ Bar	£380.00
1820209	Flo Dual Plus Top Mount Clamp Fixing	£26.00
1820313	Flo Dual Plus Top Split Mount Clamp Fixing	£26.00

1820042	Cast Grommet Fixing (Up to 38mm Desk)	£41.00

Wishbone Dual Bar

RODNEY MONITOR ARM

Rodney is a simple and cost-effective monitor arm offering a range of ergonomic benefits. Screen supports supplied with monitors only offer vertical adjustment - Rodney has 430 mm of horizontal reach allowing different focal lengths to be easily achieved for an all round user experience.

With desk clamp included, integrated cable management and security features as standard, Rodney monitor arms are ready to install and use immediately with no add-ons required. They are designed to be compact and to maximise desk space.

1822100	Rodney Arm, Post & Clamp Fixing	£93.00
---------	---------------------------------	---------------

DAISYONE ARM

Daisyone is a compact monitor arm support solution that allows dual monitor screens to be mounted at the same height on a single post without the need for an additional back-to-back bracket.

Daisyone allows for the monitor to be positioned in either landscape or portrait positions and includes a quick release monitor mount security feature as standard.

1823004	Daisyone + 500mm Post	£155.00
---------	-----------------------	----------------

Fixings

Please choose how you want to fix the monitor arm to your desk when ordering.

1820011	Through Desk Fixing (Up to 35mm Desk)	£7.00
1820001	Desk Clamp Fixing (Up to 38mm Desk)	£20.00
1820042	Cast Grommet Fixing (Up to 38mm Desk)	£41.00

LAPTOP & TABLET SOLUTIONS.

Taking the ouch out of laptop slouch

Our ever-growing use of mobile devices – phones, tablets, laptops and notebooks – for both work and play is fast turning us into a nation of slouch potatoes.

Hours spent every day hunched over a portable device of one sort or another has led to an increase in neck, back and shoulder problems, particularly among the young.

Laptop slouch, as it has become known, is the latest problem to test the ingenuity of the ergonomics industry. Fortunately they've come up with most of the answers.

A huge range of accessories have been developed to help people adopt a healthier approach to laptop and tablet use.

Stands that raise screens to the correct level; separate Bluetooth ergonomic keyboards and mice; lap desks; and trolley or backpack carry cases have all been introduced to help take the 'ouch' out of the slouch, and make the devices' portability a virtue rather than a vice.

Having a stable base on which to work and taking regular breaks to relieve upper body tension will also help to protect against musculoskeletal problems.

We're constantly adding to our range of products designed to allow laptop and tablet owners to use the technology safely and comfortably, so visit our website throughout the year to keep up with the latest news.

SLIM COOL

Telescopic side bars provide wide support and help keep the laptop cool by allowing increased airflow.

1401110 Slim Cool **£49.95**

CRICKET LAPTOP/TABLET STAND

Angle adjustment: 11-60° (6 increments).

ULTRATHIN KEYBOARD COVER

Ultra slim, lightweight, Bluetooth, keyboard cover works with iPad 2, 3 and 4.

9745291	Ultrathin (iPad 2/3/4)	£89.99
---------	------------------------	---------------

POSTURE SUPPORTS.

Simple ways to transform workplace comfort

Sometimes the simplest solutions are the best. Arm, wrist and foot rests, lumbar rolls and seat wedges are relatively low-tech but can still be incredibly effective in helping to solve or improve a work-related musculoskeletal condition.

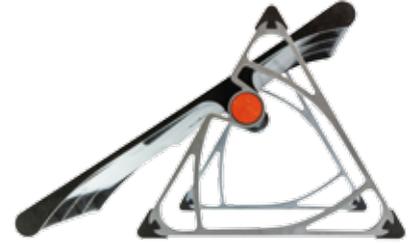

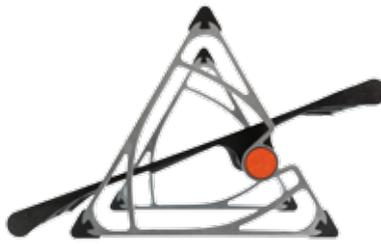

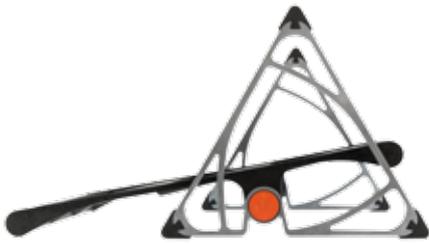

We stock a large range of products and aids that can be used for extra support when required.

Foot rests that adjust for both angle and height will ensure that your legs and feet are properly supported and encourage a correct posture.

Support cushions, including lumbar rolls and wedges, provide back support and promote better posture when using non-ergonomic chairs at work. They are also useful travelling companions for car and aeroplane seats as well as at home in dining room or home office chairs.

Arm and wrist rests provide protection and comfort while also helping to prevent strain and fatigue.

Braces and body belts provide compressive support to alleviate the worst effects of mild strains and pains.

TRIRITE ADJUSTABLE FOOTREST

With 3 angle adjustments of 10°, 20° and 33° and endless footplate movement, TriRite will support you comfortably while you work.

Made from fully recyclable materials, the TriRite is easy to assemble and with its generous footplate, it will provide support to users of all heights and sizes.

Designed and manufactured in the UK, the TriRite is durable and easy to adjust – the footplate pivots around the axle and users can simply nudge the end supports with a foot to adjust the footplate height and angle.

9820300 TriRite Footrest **£44.95**

ADJUSTABLE FOOTREST

A simple, stable, height adjustable footrest with individually height adjustable feet.

5774 Adjustable Footrest **£39.95**

THE MASTER FOOTREST

Front or back tilting, adjustable footrest.

5701 The Master Footrest **£39.95**

ADJUSTABLE FOOT PLATFORM

Adjustable incline footrest with a compartment for dictating machine controls.

5775 Foot Platform **£59.95**

SCORE 952 HEIGHT ADJUSTABLE

Height (between 8-29 cm) and angle adjustable platform.

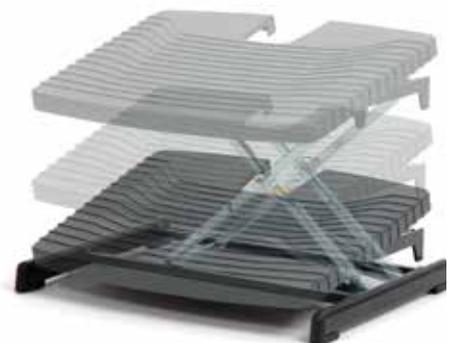

5751 Score 952 Footrest **£124.95**

SCORE 959

The Score 959 footrest has an adjustment range between 9 cm and 37 cm and a tilt angle of up to 22°.

5752001 Score 959 Pro Footrest **£139.99**

FOOTFORM DUAL

Height adjustable up to 300 mm. Operated by a foot pedal, it's easy to adjust.

9877001	Footform Dual	£150.00
---------	---------------	----------------

DISCUS ADJUSTABLE FOOTREST

Adjustable gas lift footrest with foot pedal to adjust the height from a seated position.

3809103	Discus 150	£103.00
3809104	Discus 250	£103.00

HÅG QUICKSTEP

This dynamic, tilting footrest provides additional floor height and support while activating blood circulation.

5765	HAG Quickstep Footrest	£106.00
------	------------------------	----------------

POSITIV SINGLE AND DOUBLE LEG REST

A stable, safe and purpose built surface for injured or affected legs. Available as either a single or double.

9789001BLA	Single - Castors	£124.95
9789002BLA	Single - Glides	£124.95
9789003BLA	Single - Break Loaded	£134.95
9789011BLA	Double - Castors	£144.95
9789012BLA	Double - Glides	£144.95
9789013BLA	Double - Break Loaded	£154.95

KEYBOARD & MOUSE REST

Attaches to the front of your desk - ideal if surface space is limited.

3533	Mouse Rest	£22.95
3534	Keyboard Rest	£44.95

CORNER KEYBOARD STAND

A cost effective solution for frustrated corner desk computer users. One size fits all.

3551	Acrylic	£32.95
3556	Metal	£37.95

NEUTRALISER SYSTEM

A well-designed articulating keyboard system that works in conjunction with a monitor arm and task chair to promote healthy, comfortable posture.

3522	Neutraliser System	£247.00
------	--------------------	----------------

ERGOREST ARMREST

The Ergorest armrest is ergonomically designed to provide support to the forearm, relieving muscle strain and fatigue from the shoulders and taking pressure of sensitive areas of the wrist.

Easy to install, the Ergorest armrest just clamps on to the front of your existing desk and adjusts to suit the user for a range of work tasks.

Add a mouse mat to complete the solution. The optional Mouse pad ensures you use the mouse in the most ergonomic position.

Fits desk thickness 15-43 mm.

3511	Ergorest	£83.00
3518	Ergorest and Mouse Pad	£110.00
3513	Ergorest - Height Adj	£120.00

WASP WRIST REST

Provides relief from supporting the weight of hands and forearms allowing you to glide your hand across a keyboard and mouse whilst your wrist is supported.

3510	WASP Wrist Rest (pair)	£47.95
------	------------------------	---------------

ABDOMINAL BINDER

Suitable for post trauma, post surgical support and ventral hernia.

9889201	Small	£16.98
9889202	Medium	£16.98

Correct your posture as you drive, Posture Genie will help to avoid strain placed on the left sacro-iliac joint from constant repetitive use of the right leg whilst driving.

8866001	The Posture Genie	£59.99
---------	-------------------	---------------

SUPPORTTECH MEMORY FOAM CUSHION

Features an ingenious valve system, SupportTech moulds itself to your shape and holds that shape until you release the valve.

8821900	SupportTech Cushion	£69.95
---------	---------------------	---------------

ENABLEMENT & ASSISTIVE TECHNOLOGY.

Enabling people to reach their full potential

It's estimated that around two million people – almost 10% of the UK workforce – are severely affected by dyslexia, a neurological disorder affecting a person's memory, reading, writing and spelling skills. Many more display some dyslexic tendencies.

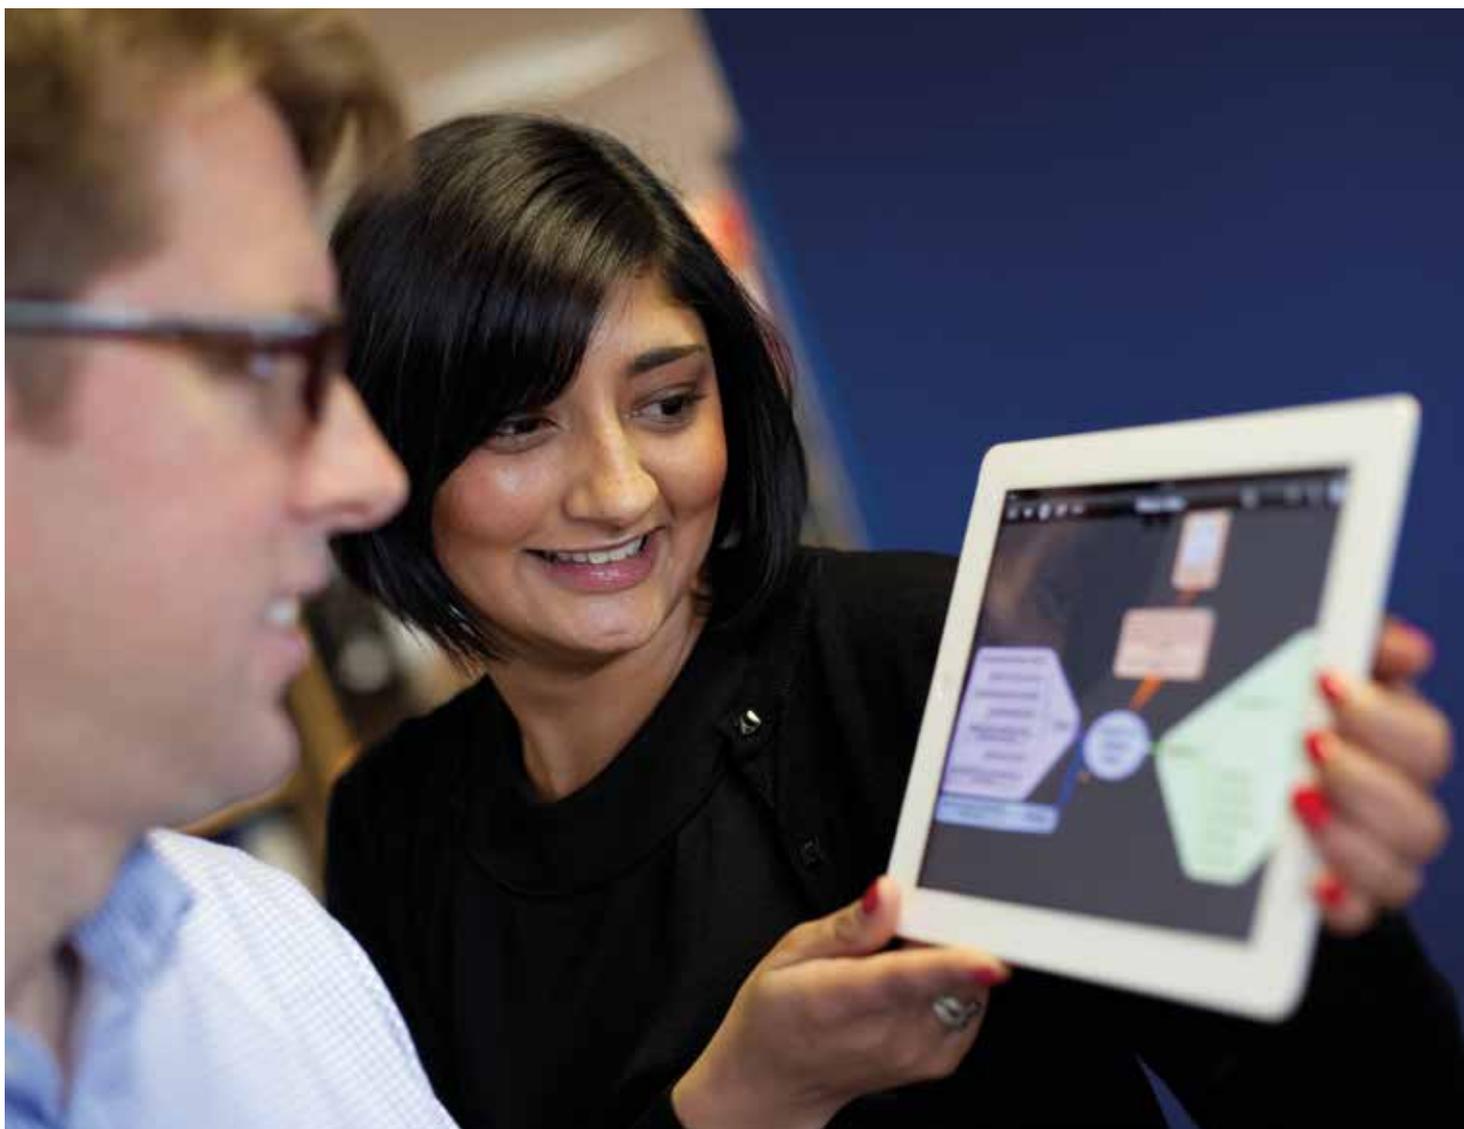

With such large numbers involved, it's important that businesses know how to recognise and support employees with these and other disorders.

We supply a wide range of Enablement services and Assistive Technology products specifically designed to help people with disabilities and impairments to cope better with everyday work tasks and improve productivity.

Whether it's dyslexia, dyspraxia, dyscalculia, visual impairment or hearing problems, there is a massive choice of services and products available that can help transform people's lives and enable them to reach their full potential.

ASSISTIVE TECHNOLOGY TRAINING & SERVICES.

Help your staff to get the most out of Assistive Technology.

We believe in enabling and empowering individuals, helping them to achieve and to reach their full potential.

Thousands of our customers are provided with Assistive Technology products every year around the UK. These products can range from specialist software for visually impaired individuals to hardware such as digital voice recorders or speaking dictionaries. Without proper training, the benefits that these products can deliver will never be maximised.

Our Assistive Technology training is a personalised session outlining how the particular Assistive Technology products can help in specific tasks or work routines and methods.

Posturite has worked with organisations of all sizes for many years, helping them comply with legislation and their employer obligations.

We are experts in productivity and maximising potential and believe that investment in our employees pays dividends; it results in a happy, healthy and fulfilled workforce – more conducive to achieving success.

BENEFITS

- ✔ All of our services can be tailored to your needs
- ✔ Understanding of the benefits of Assistive Technology within the workplace
- ✔ Increased productivity and job satisfaction for individuals who have difficulties in their role
- ✔ Maximise the positive impact that Assistive Technology can have within your organisation

Posturite Enablement offers different types of assessments and combinations of assessments to support employers in identifying an employee's specific needs. Whether assistance is required to diagnose or support, the following assessments offer a range of solutions.

DYSLEXIA DIAGNOSTIC ASSESSMENT

A Diagnostic Dyslexia Assessment is an in-depth one to one session, carried out by a fully qualified and registered psychologist specialising in adult dyslexia, following the assessment, a full written report will be issued.

ASSISTIVE TECHNOLOGY TRAINING

Without proper training, the benefits that these products can deliver will never be maximised. Our Assistive Technology training is a personalised, work related session going through how the particular Assistive Technology products can help in specific tasks or work routines and methods taking into consideration learning challenges.

ONE TO ONE WORKPLACE STRATEGIES

We spend time with the individual to gain a thorough understanding of their role and the key tasks that they are expected to perform. We will discuss these tasks with other parties (e.g. Line Manager) and will create a range of practical coping strategies which could recommend new methods of working, new assistive technology or workstation aids, all of which would support them in achieving their potential.

If you're unsure of which training or assessment session is right for you, speak to your Account Manager and they'll advise which level is best suited to your needs.

WORKPLACE NEEDS ASSESSMENT

Our Workplace Needs Assessments play a major role in assisting your staff to develop effective coping strategies for overcoming any issues and problems they might encounter.

The assessment will result in Reasonable Adjustment recommendations; these might include strategy training or Assistive Technology. We will work with your staff member to understand their skills and the gaps they might have in their knowledge and abilities and will tailor a package of reasonable adjustments to match their exact needs.

VISUAL IMPAIRMENT ASSESSMENT

The written report that will be generated will provide the employee with a strategy for overcoming the impact their visual impairment might be having and it will help you unlock your employee's full potential. You will be given precise recommendations on any reasonable adjustments you need to make.

HEARING IMPAIRMENT ASSESSMENT

Our Hearing Impairment Assessment generates a written report for the employer that features a strategic plan to help you support your staff in the best way possible. The report offers recommendations for reasonable adjustments that may need to be made in order to overcome the difficulties presented by hearing impairment at work.

ASSISTIVE TECHNOLOGY/ REASONABLE ADJUSTMENTS REVIEW

Our Assistive Technology/Reasonable Adjustments Review is designed to revisit or review previously implemented reasonable adjustments that you have made to accommodate or assist your staff. We will consider the needs of both the individual and the organisation and will advise on additional reasonable adjustments that might be needed to achieve resolution.

COLOUR OVERLAY ASSESSMENT

If an individual has been diagnosed with a specific learning difficulty, a Colour Overlay Assessment is a simple quick assessment that can, on occasions, overcome the problem almost immediately.

SOFTWARE.

Help people improve productivity and cope better with everyday work tasks.

DRAGON NATURALLY SPEAKING

Dragon converts voice to text three times faster than most people type. Just start talking, and the software will recognize your voice instantly, with up to 99% accuracy. Accuracy will continue to improve the more you use the software.

The Premium edition is for small businesses and individuals. The Professional edition is enterprise ready, for larger businesses.

Dragon lets you work wirelessly, transcribe notes dictated on the go, and use voice shortcuts to get more done faster. For users with literacy difficulties – such as dyslexia – the perfect spelling and audio feedback of Dragon NaturallySpeaking helps you create professional and accurate documents.

With Quick Buttons you can:

- Get help
- Adjust the screen magnification level
- Switch on high contrast colour schemes
- Switch on speech and adjust the speed
- Access online services

9745359	Dolphin Large Print Keyboard	£49.00
---------	------------------------------	---------------

EVACUATION CHAIRS & DEFIBRILLATORS.

Helping you to cope in an emergency

Even in the best ordered circles, crisis situations do happen. When they do, companies need to be confident that they have the means and correct resources to cope.

So it's surprising, if not a little worrying, that more than half of British businesses still don't have an automated external defibrillator (AED) on their premises despite overwhelming evidence to show how important the device is in saving the life of anyone suffering a sudden cardiac arrest.

It is thought that around 30,000 people in the UK have a sudden cardiac arrest out of hospital each year. Survival rates are significantly lower than in many other developed countries, but could be dramatically improved if more defibrillators were readily available.

Our market-leading LIFEPAK CR Plus AED features the same advanced technology trusted by emergency medical professionals. Seventy per cent of UK ambulances have a LIFEPAK AED on board, yet it's remarkably simple to use by anyone with a small amount of training.

Most fires in the UK happen in the home. But non-dwelling fires are by no means uncommon – there were 22,500 in 2012/13.

Companies have a legal obligation under the Regulatory Reform (Fire Safety) Order 2005 to ensure that everyone on their premises – staff, visitors or customers – should be able to escape safely if there is a fire.

Posturite's EvacuRite evacuation chair is designed to cope in any emergency situation where a person is required to be smoothly and safely transported down stairs. It excels for ease and speed of use, comfort, manoeuvrability and durability.

Like our AED, it could quite literally be a life-saver. Talk to us today to arrange a demonstration.

EVACURITE EVACUATION CHAIR.

Are you equipped to evacuate your site in the event of an emergency?

Cover and Wall Bracket

Compact Foldaway Design

Transit/Wheelchair Use

EVACURITE EVACUATION CHAIR

Best-in-class, economically-priced evacuation chair

EvacuRite is a robust, economically-priced evacuation chair that excels in terms of ease of use, comfort, manoeuvrability and durability. It is suitable for use in almost any environment and emergency situation where a person is required to be smoothly and safely transported down stairs.

- Simple rapid-deploy system - allows the chair to be ready for use in seconds with no heavy lifting
- Lightweight aluminium frame - making it the lightest evacuation chair in its class
- Can be used as an alternative transit/wheelchair
- Smooth, safe, glide-track system ensures a comfortable and controlled evacuation down stairs
- Dual rear brakes at waist level for easy application
- Forward-extending, ergonomically-shaped handles assist manoeuvrability
- Adjustable chest, lap and shin straps
- Adjustable neck support
- Wipe-clean material
- Wall attachment bracket - no lifting required
- Cover included
- Full instruction manual including trained operator/maintenance inspection log
- 5 year guarantee
- Directive 93/42EEC Medical Devices - Class 1
- Annual inspection check available - POA
- EvacuRite training courses available on request

LIFEPAK CR PLUS.

Automated External Defibrillator.

Lifepak CR Plus

Wall Bracket

Carry Case

LIFEPAK CR PLUS AED

Trust the brand that 70% of UK ambulances use!

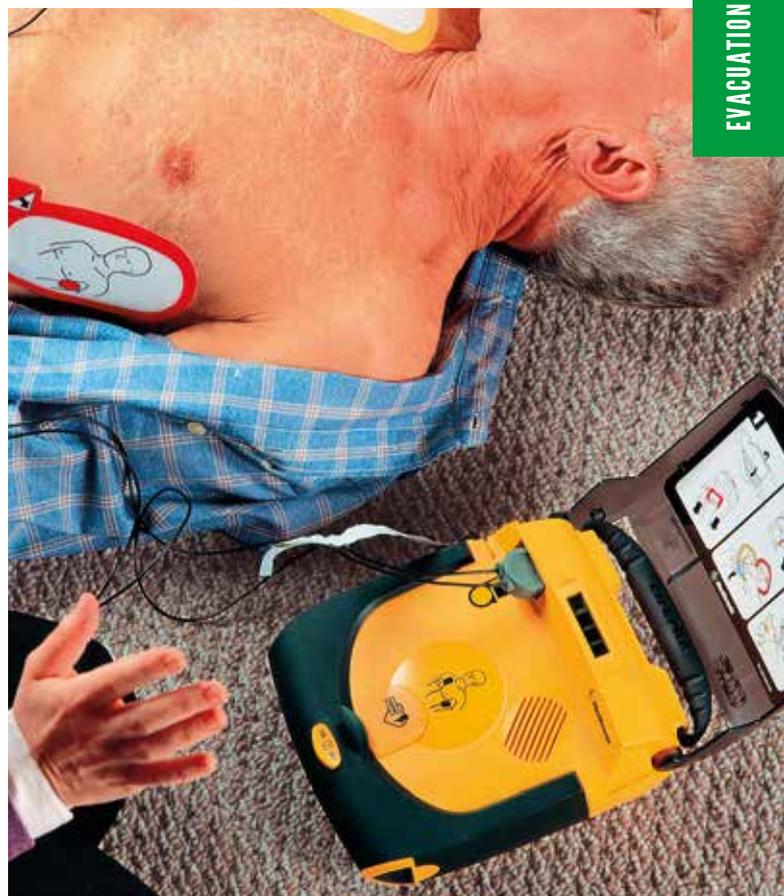

Featuring the same advanced technology trusted by emergency medical professionals - yet simple to use - the LIFEPAK CR Plus automated external defibrillator (AED) is designed specifically for the first person to respond to a victim of sudden cardiac arrest (SCA). Although not everyone can be saved from sudden cardiac arrest, studies show that early defibrillation can dramatically improve survival rates.

- Weekly & monthly self tests plus four visible readiness displays let you know if the CR Plus is ready to do its job
- Simple maintenance with synchronized replacement for CHARGEPAK™ battery charger & QUIK-PAK™ electrodes
- Smart, safe device designed to shock only if needed
- Designed specifically for minimally-trained users
- Fully automatic model with 2-step operation:
 1. Turn on device. 2. Apply electrode pads
- Industry leading eight year warranty
- AED training courses available on request

MV400 LIFEPAK CR Plus AED Automatic **£1,495.00**

Weight:	2 kg with CHARGE-PAK and electrodes

Contents

Defibrillator, carry case, Ambu® Res-Cue mask® first responder kit, charging stick, two pairs of adult QUIK-PAK™ electrodes, quick reference card and user DVD.

E-LEARNING, TRAINING & CONSULTANCY.

Workplace health and safety

WorkRite is the UK's premier independent provider of workplace health and safety e-learning, training and consultancy solutions.

Our products and services offer both flexibility and cost-effectiveness. So whether you are a small or medium sized business looking for total support from our fully-managed service, or a large multinational company requiring occasional specialist back-up for your in-house team, we can create a package to suit your needs.

Our creative, highly interactive e-learning courses are used each year by tens of thousands of people across the country.

They offer a convenient and cost-effective solution to a company's needs to fulfil its legal obligation to its staff by ensuring they are properly trained in subjects such as DSE usage, manual handling, stress management and fire safety. Our great value leasing packages mean that it can cost as little as one pound per user per year to ensure they get the training they need.

Each of our standard programs can be customised to meet your individual needs, including translation into your required languages. Or we can create your own unique courses.

All WorkRite courses are supported by our market-leading online management system which captures essential information for your health and safety team, and provides a fully-auditable trail of actions required or taken.

Along with our wide range of contemporary, multimedia face-to-face training we run dozens of drop-in and hosted courses around the country every year. We also provide consultancy services - the ideal solution for organisations that need a bit more help to implement and conduct an effective health and safety regime in accordance with current legislation.

But there will always be occasions when something special is required. So if you don't immediately find what you need, give us a call. We'll tailor-make a service specifically for you.

E-LEARNING.

E-learning is now the method of choice for most organisations to deliver essential health and safety training to their office staff.

ASSESSRITE

Our flagship **Display Screen Equipment (DSE)** course, an essential course for all workplaces.

It provides individual users with the flexibility to decide where and when they do their training with no need for disruption or days out of the office.

E-learning offers a simple, cost-effective and flexible solution to your training needs. It provides an audit trail of essential information, highlighting any issues that may need addressing and further actions that may be required.

WorkRite's health and safety e-learning and assessment courses feature clear step-by-step instructions and striking visuals. A high level of interactivity is required throughout these modules. This translates into increased knowledge retention and improves the overall learning experience of your staff.

E-learning can be used irrespective of where your staff are based in the world and no matter how many locations you might have. Our courses are available in a multitude of languages and, if required, we can even personalise the content to suit your corporate identity or brand. Should you have existing course content that you want to develop into an e-learning course, we can do that for you too. This is particularly useful for induction purposes or to convey your own internal policies or procedures.

Our e-learning courses have a minimal impact on your IT department. No media plug-ins are required and implementation is seamless. Our staff will work with you to ensure that all systems are installed safely with the least possible disruption. We have a specialist installations team and a dedicated helpline – they will provide support for any query you might have, no matter how small.

WorkRite has ISO accreditation to ISO9001, 14001 and 27001 - so you can be assured that we have a secure, resilient system to host your valuable training data.

BENEFITS OF WORKRITE E-LEARNING

- ✓ Standardises health & safety training and assessment procedures
- ✓ Provides automatic e-mail reminders and re-train function
- ✓ Offers a permanent audit trail of all training
- ✓ Accessing data for multiple sites is simple and immediate
- ✓ Easy to assign and evaluate individual responsibilities
- ✓ Enables early intervention and the opportunity to prevent long-term sick leave
- ✓ Course appearance and content can be customised
- ✓ Single management portal with real time reporting
- ✓ Allows training to be completed in small sections to accommodate busy schedules
- ✓ Minimal need for IT involvement

FIRERITE

It is a legal requirement for all organisations to provide training for all staff on **fire safety awareness**.

OHSA

Office Health & Safety Awareness course to help staff awareness of legislation to control risk and reduce work-related ill health.

FEELRITE

Stress awareness course that defines what stress is and isn't, encouraging people to look at their home and work life to identify potential problems.

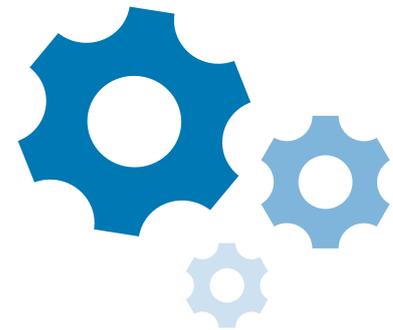

HANDLERITE

WorkRite's **manual handling** course is an essential guide to correct manual handling for those working in a low-risk environment such as an office.

DRIVER AWARENESS

This interactive driver program has been developed in association with TRL, and is designed for employees who drive as part of their job role.

BESPOKE COURSES

You supply the content and we'll create your own unique, one-off course.

Each of our standard courses can be customised to meet your individual needs, including translation into other languages. Or we can create your own unique, one-off course on any subject.

E-LEARNING COURSES

- DSE (Display Screen Equipment)
- DSE for Homeworkers
- Fire Safety Awareness
- Stress Awareness
- Manual Handling for the Office
- Office Health & Safety Awareness
- Office Health & Safety Awareness for Line Managers
- Mobile and Remote Workers
- Data Protection
- Asbestos Awareness
- Environmental Awareness
- Equality & Diversity
- Conflict Resolution

For more information on any WorkRite e-learning course or to trial any of our courses free of charge for 30 days, visit workrite.co.uk.

TRAINING SERVICES.

DSE assessing, first aid, manual handling, fire safety awareness and much more.

Each year WorkRite delivers hundreds of training courses throughout the UK that help people gain skills such as DSE assessing, first aid, manual handling and fire safety awareness.

Our courses provide an interesting and stimulating environment where the emphasis is on participation and interaction. All our trainers are highly qualified and experienced professionals with a variety of training techniques. They all have extensive 'real world' experience in their respective fields, whether it be DSE, Fire or First Aid.

You can choose between hosting the course at your premises – and, if you wish, have it adapted to meet your organisation's specific needs – or booking individual places on one of our hugely popular drop-in DSE courses. Either way, numbers are always strictly limited to ensure that each delegate receives the personal attention that is needed for them to achieve the qualification they seek.

If you don't see exactly what you are looking for, WorkRite can develop courses to suit you. Our many years' experience of providing high quality training means that we can deliver bespoke training courses tailored exactly to your needs.

DSE DROP-IN TRAINING

Our DSE drop-in courses are popular with many businesses, particularly if only a small number of staff require training. We organise the date, location, catering, hospitality, training and equipment. You or your staff simply need to book your places and prepare for your training. Everything else will have been taken care of.

BENEFITS

- ✓ Perfect for a small number of staff
- ✓ No organisation required on your part
- ✓ An opportunity to network with people from other companies and share experiences
- ✓ Courses are held in major conurbations with easy public transport links

Drop-in courses are regularly held across the UK, an up-to-date list of courses and locations can be found at workrite.co.uk.

HOSTED TRAINING COURSES

Hosted training puts you in control. You choose the date and provide the venue, and we provide the training, the necessary equipment and learning resources to make the course memorable and interactive.

Certificates are issued post-training to ensure that your staff have what they need for CPD purposes. You can rest assured that we incorporate legislative changes and updates into all course content when appropriate. We will even remind you when refresher courses or retraining are required.

BENEFITS

- ✓ You can incorporate your organisation's policies and procedures and be specific about your situation – it's tailored to you
- ✓ You can train in the environment and with the actual equipment you will use in the event of an emergency – staff are confident if a crisis arises
- ✓ Exclusivity
- ✓ Cost effective

HEALTH AND SAFETY

SOFTWARE.

Risk & Accident Management Systems.

RISK MANAGEMENT SYSTEM (RMS)

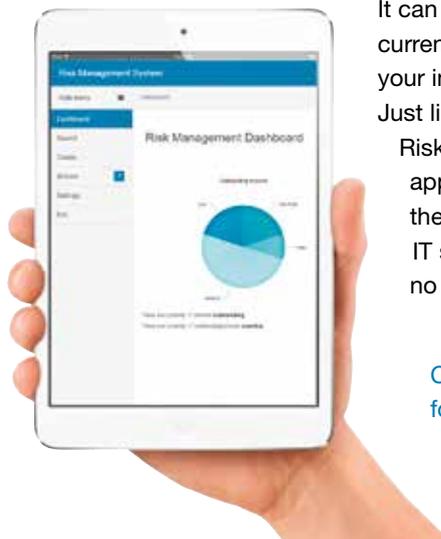

Managing the various aspects of Health & Safety compliance can be an onerous task for any organisation.

Our secure, configurable, online risk management tool is designed to take the burden out of managing safety information, giving you time to concentrate on your business.

Our Risk Management system is more than just a document store. It is designed to automate processes, analyse data and provide real time information on your organisation's performance.

It will store and manage all your risk assessments (whether current or historic) and provide you with actions, risks and hazards, and will even email users with outstanding or impending

actions. The dashboard will provide you with all the reports, statistics and overviews you might need to ensure your organisation is compliant and safe.

It can be adapted to complement your current safety management model, utilising your inspection forms and audit reports. Just like our e-learning courses, our Online Risk Management system is a web based application accessed via the internet, there is minimal impact on your existing IT systems and your IT team will have no additional work to do at all.

Call us today on **0845 345 0030** for a demo or visit workrite.co.uk.

ACCIDENT MANAGEMENT SYSTEM (AMS)

Knowing where and how accidents are occurring is fundamental to preventing their recurrence.

Our online accident management system makes the reporting process quick and simple for staff and provides real time data to your organisation.

It will not only allow you to centralise your accident reporting but it will enable recording of:

- Work related incidents
- Dangerous occurrence
- Near misses
- Work related absence
- Occupational diseases
- Property damage

As well as a suite of standard forms designed to keep you compliant with UK legislation, we can create bespoke report forms, including security incidents, vehicle incidents or PPE failure.

Once reported, the system gives the responsible person the ability to manage investigations online, providing detailed, customisable investigation templates with guidance notes and allowing the uploading of relevant information including picture files, word and PDF documents.

You can generate a wide range of reports in word, excel or PDF format and even create multiple users to allow line managers to manage the system, including setting up a notification matrix to suit you.

CONSULTANCY.

Health, Safety & Wellbeing Services.

We all operate within a changing legislative landscape. Staff training, health and safety and basic legislative requirements can be a worry or even a distraction.

Unsurprisingly, many choose to outsource some or all of these vital functions. Managing the health, safety and wellbeing of staff can help reduce absence and help you promote a positive safety culture throughout your organisation.

From developing health and safety policies and risk assessments through to workplace ergonomic audits and fully managed online risk management systems, you can delegate these essential tasks to us whilst you focus on your objectives.

AUDIT SERVICES

WorkRite offers a range of audit packages from basic site inspections to full legal compliance audits, including property risk assessments. Every business will have individual needs – we will work with you through the audit process, giving you a clear snapshot of how you stand and clear recommendations of what's needed. Using our online risk management system, we can also help you migrate your internal audit processes online, managing actions, saving you valuable time and resources.

GAP ANALYSIS

WorkRite Consulting can work with your business to enable you to comply with legislation, write or adapt safety policies and procedures, offer training and generally assist you to comply with all health and safety legislation pertaining to your business.

HEALTH & SAFETY DOCUMENTATION

Every business needs to address their Health & Safety obligations – it doesn't have to be time consuming or onerous but you do need to comply with legislation. WorkRite can develop suitable policies or systems for your workplace or review your existing documentation to determine current compliance with regards to changes in legislation or best practice.

NEED A COMPETENT PERSON?

Employers are legally responsible to ensure they have access to competent health and safety advice and guidance. If complying with Health & Safety legislation is proving to be an increasing burden to you, WorkRite can act as your lead provider of advice and guidance. We will structure our service to whatever level you require – you can hand as little or as much over to us and relax in the knowledge that experts in their fields are ensuring your compliance is absolute.

RISK ASSESSMENT SERVICES

To you, the workflows or methods you use might be routine or everyday matters. You might not think them particularly hazardous or dangerous but it's very likely that a risk assessment is needed to show that you have considered your duty of care obligations to staff, customers or members of the public. If you need your risk assessments to be reviewed or require new assessments for particular tasks or processes, we can develop bespoke assessments for you. Using our online risk management system why not complete, store and manage your risk assessments online?

FIRE SAFETY

Without exception, every workplace must possess a fire risk assessment. WorkRite can work with you to develop your fire risk assessment, emergency plans, training, manage fire safety remedial works, review existing fire risk assessments and conduct fire drills. We can also help you with fire safety equipment, providing a total solution to your fire safety needs.

LONE WORKING ASSESSMENTS

If you employ lone workers, your duty of care obligations may be different from those of an employer who has an office-based workforce. Lone workers can feel isolated and may face entirely different challenges from those of office-based staff. We can help you with provision of a lone working review and assessment services, identifying solutions to protect lone workers, including training and mobile systems.

STRESS & WELLBEING

Stress is responsible for a significant amount of work absence, costing the UK economy around £4 billion every year. WorkRite's online e-learning course FeelRite has been taken by thousands of individuals. It provides employers with a clear picture of how their staff are reacting to stressful situations and suggests strategies for coping.

We additionally provide assessments of organisations against the HSE stress management standards. This includes staff surveys, solution focus training, production of a support plan, optional provision of facilitation sessions and full support from WorkRite's stress management consultant.

OFFICE ENVIRONMENTS.

Creative, cost-effective interiors

The way you design and fit out your offices says a lot about you as an employer and a business.

A well planned and equipped environment inspires staff, impresses clients and improves efficiency. An ill thought-out scheme does the complete reverse.

So it's important you get it right.

Office Environments has an enviable track record in helping companies to make the most of their space – and their budgets!

Whether designing and fitting out a single office, a suite of rooms or an entire building, Office Environments apply the same high levels of personal service and attention to detail that have helped to make Posturite the country's leading supplier of ergonomic office solutions.

Office space is too costly to waste. Office Environments will work with you to meet your complete office interior needs and objectives, within your budget and timescales.

FIT OUT & DESIGN.

Inspirational spaces.

Kings Legal office refit

From the very first briefing to project completion, Office Environments will be with you every step of the way. One of the reasons our customers use us is the personal service we provide.

Providing CAD drawing plans, furniture samples and precise, accurate estimates to deadlines is what we do every day. We tailor our service to suit you – the results speak for themselves.

YOUR VISION

Interpreting a brief isn't always easy but it's something we excel at. You will be presented with mood boards which take account of budgets, corporate identity and every requirement you might have. We will inspire you.

SEE OUR PORTFOLIO

www.office-environments.co.uk/case-studies

Office Environments has helped organisations of all sizes. Small independent businesses, public sector organisations, charities and blue-chip multinationals have all benefitted from working with us.

Visit our website to see some examples of our work including a complete office refit for Kings Legal, contract seating and furniture installations for Bank of New York Mellon, bespoke furniture for Plantronics and Harley Davidson, and much more.

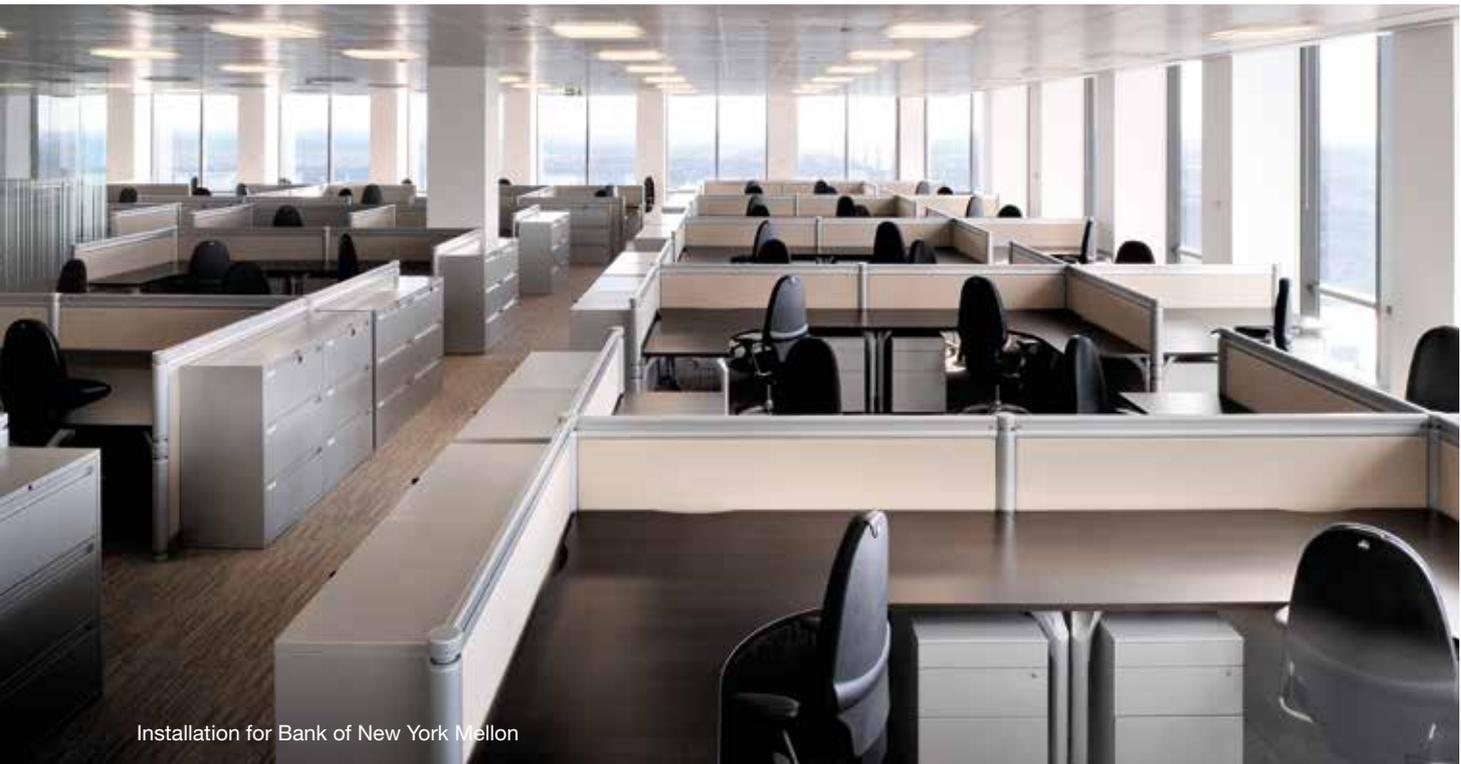

OUR AREAS OF EXPERTISE INCLUDE

Brief taking; design; furniture consultancy service; space planning; full fit-out; refurbishment of new or existing space, boardrooms, receptions areas, meeting rooms and break out areas; ceilings, flooring and wall coverings; HVAC systems; mechanical works; electrics; full cost analysis; full project management; turnkey service; leasing.

CONTRACT SEATING & FURNITURE.

The UK's largest independent supplier of office seating.

Installation for Bank of New York Mellon

Whilst we are best known for helping our clients manage employees with specific musculoskeletal issues, we have also helped hundreds of companies in the selection and supply of office furniture.

Selecting the right chair for your business and employees' needs is an important but sometimes difficult decision. There's an almost bewildering range of styles and designs from which to choose.

That's where we can help.

As the UK's largest independent supplier of office seating, we have worked with hundreds of companies to provide them with the expertise and in-depth market knowledge to help them make the right choice.

No two companies' needs are the same, therefore we offer a free consultation service to get to know and understand your specific requirements. We can then recommend and provide a number of chairs for trial and evaluation across the business.

Once you have made your decision, we will deliver the chairs on an agreed date and time to ensure minimal disruption to your business. We also offer free training and familiarisation to ensure that every user gains maximum benefit from their new chairs.

For more information, contact us on **0845 4080 640** or email **support@office-environments.co.uk**.

TERMS & CONDITIONS OF SALE

1. INTERPRETATION

"Contract" means any contract between the Company (Posturite Limited) and the Buyer for the sale and purchase of the Goods, incorporating these Conditions; "Goods" means any goods agreed in the Contract to be supplied to the Buyer by the Company.

2. APPLICATION OF TERMS

- 2.1 Subject to any variation under condition 2.3 the Contract will be on these Conditions to the exclusion of all other terms and conditions.
- 2.2 No terms endorsed upon, contained in the Buyer's purchase order, or other document will form part of the Contract simply as a result of such document being referred to in the Contract.
- 2.3 These Conditions apply to all the Company's sales and any variation to these Conditions and any representations about the Goods shall have no effect unless expressly agreed in writing and signed by a Director of the Company.
- 2.4 Each order for Goods by the Buyer from the Company shall be deemed to be an offer by the Buyer to purchase Goods subject to these Conditions.
- 2.5 Each order placed by the Buyer shall be deemed to be accepted by the Company unless the Company notifies the Buyer within 7 working days that it does not accept the order.
- 2.6 The Buyer must ensure that the terms of its order and any applicable specification are complete and accurate.

3. DESCRIPTION

- 3.1 All material and specifications including weights and dimensions issued by the Company and any descriptions or illustrations contained in the Company's catalogues, brochures and website are issued or published for the sole purpose of giving an approximate idea of the Goods described in them. They will not form part of this Contract.

4. DELIVERY & INSTALLATIONS

- 4.1 Unless otherwise agreed in writing the Company will arrange delivery of the Goods to the Buyer's premises in the UK.
- 4.2 Any dates specified by the Company for delivery of the Goods are intended to be an estimate and time for delivery shall not be made of the essence by notice. If no dates are so specified, delivery will be within 30 days of the Buyer placing an order.
- 4.3 Subject to the other provisions of these Conditions the Company will not be liable for any loss (including loss of profit), costs, damages, charges or expenses caused directly or indirectly by any delay in the delivery of the Goods (even if caused by the Company's negligence).
- 4.4 The Company will deliver to the ground floor entrance of the Buyer's premises and unless agreed otherwise shall not assemble the Goods.
- 4.5 If a delivery period is specified in the contract it shall commence on the date upon which the Company confirms or accepts the Buyer's order, or (if later) when the Company receives any further information from the Buyer, which shall be supplied promptly, which may be necessary for the contract to be proceeded with. The delivery date or period specified in the contract shall not be binding on the Company and although the Company will use its best endeavours to deliver such dates or within such periods it shall not be liable in any way for failure to do so.
- 4.6 Where agreed in a contract the Company will install the Goods at the premises nominated by the Buyer as specified in the contract and the Buyer shall give to the Company all necessary access and facilities for the installation work (including arrangements for the Buyer's staff to be available as and when required). If the Buyer fails to provide and agree facilities within seven days of delivery of the Goods to the premises the contract price shall become due forthwith. The Buyer will indemnify the Company against any liabilities, claims or costs which the Company may suffer by reason of injury to person or property of employees of the Company or any other person occurring while they are on the Buyer's premises unless such injury is caused by the fault or negligence of the Company.

5. NON-DELIVERY

- 5.1 In the event that the Buyer requires the Company to produce evidence of proof of delivery the Buyer must request this within 30 days of the Invoice Date otherwise the Buyer must accept that the Goods were delivered to the Buyer's premises.
- 5.2 The quantity of any consignment of Goods as recorded by the Company upon despatch from the Company's place of business shall be conclusive evidence of the quantity received by the Buyer on delivery unless the Buyer can provide conclusive evidence proving the contrary.
- 5.3 The Company shall not be liable for any non-delivery of Goods (even if caused by the Company's negligence) unless written notice is given to the Company within 30 days of the date when the Goods would in the ordinary course of events have been received.
- 5.4 Any liability of the Company for non-delivery of the Goods shall be limited to replacing the Goods within a reasonable time or issuing a credit note at the pro rata Contract rate against any invoice raised for such Goods.

6. RISK/TITLE

- 6.1 The Goods are at the risk of the Buyer from the time of delivery.
- 6.2 Ownership of the Goods shall not pass to the Buyer until the Company has received in full all sums due to it in respect of:
 - 6.2.1 the Goods; and
 - 6.2.2 all other sums which are or which become due to the Company from the Buyer on any account.
- 6.3 The Buyer's right to possession of the Goods shall terminate immediately if:
 - 6.3.1 the Buyer has not paid in full for the Goods and has a bankruptcy order made against him or makes an arrangement or composition with his creditors, or otherwise takes the benefit of any Act for the time being in force for the relief of insolvent debtors, or convenes a meeting of creditors or enters into liquidation except a solvent voluntary liquidation for the purpose only of reconstruction or amalgamation, or has a receiver and/or manager, administrator or administrative receiver appointed of its undertaking or any part thereof, or a resolution is passed or a petition presented to any court for the winding up of the Buyer or for the granting of an administration order in respect of the Buyer, or any proceedings are commenced relating to the insolvency or possible insolvency of the Buyer; or
 - 6.3.2 the Buyer suffers or allows any execution, whether legal or equitable, to be levied on its property or obtained against it, or fails to observe/performs any of its obligations under the Contract or any other contract between the Company and the Buyer, or is unable to pay its debts within the meaning of section 123 of the Insolvency Act 1986 or the Buyer ceases to trade; or
 - 6.3.3 the Buyer encumbers or in any way charges any of the Goods.
- 6.4 The Company shall be entitled to recover payment for the Goods notwithstanding that ownership of any of the Goods has not passed from the Company.
- 6.5 The Buyer will grant the Company, its agents and employees a licence to enter any premises where the Goods are or may be stored in order to inspect them, or, where the Buyer's right to possession has terminated, to recover them when an appointment has been agreed in advance.

- 6.6 If not withstanding the foregoing the Buyer is in default of payment of any part of the purchase price shall before the whole of the purchase price has been paid have a receiving order made against the Buyer or being a Company go into liquidation or have receiver appointed, then the Company may without prejudice to any other rights or remedies available to it be entitled to recover possession of the Goods and sell the same retaining all monies received on account of the purchase price and the accounting to the Buyer for balance if any.

7. PRICE

- 7.1 Prices charged are those agreed between the Company and the Buyer as stated on the order confirmation.
- 7.2 Prices shown in the catalogue are exclusive of delivery and if appropriate, installation and assembly.
- 7.3 The cost of resetting a chair that needs resetting or recycled within a Company will be charged at £37.50 plus VAT.

8. PAYMENT

- 8.1 Where the Buyer has an approved credit account, payment of the price for the Goods is due 30 days after the date of invoice.
 - 8.2 Where the Buyer does not have an approved credit account the Company will take the Buyer's credit or debit card details at the time of ordering. If the Buyer is a business account or in any event if the Goods are in stock at the time of ordering or will be delivered within 14 days or if the Buyer is a private individual and the Goods are specially ordered (are not generally held in stock) the Company shall forthwith take payment including all applicable charges from the Buyer's account. Otherwise the Company shall take payment including all applicable charges from the Buyer's account seven days prior to delivery.
 - 8.3 Time for payment shall be of the essence.
 - 8.4 No payment shall be deemed to have been received until the Company has received cleared funds.
 - 8.5 Interest on late payments will be charged at 4% above the base rate of RBS.
- ### 9. LIABILITY
- 9.1 The Company accepts liability as set out in this Clause 9 but not otherwise.
 - 9.2 The Company warrants that the Goods shall be of satisfactory quality and fit for purpose. The Company does not exclude or restrict its liability for breach of this warranty.
 - 9.3 The Company accepts liability for directly and reasonably incurred losses (other than those which the Buyer could have reasonably avoided) caused by the Company's failure to perform its services. However the Company's liability is limited as set out in Clause 9.5 below.
 - 9.4 The Company does not exclude or restrict its liability:
 - 9.4.1 for death or personal injury caused by its negligence; or
 - 9.4.2 for any liabilities which cannot by law be excluded.
 - 9.5 Other than as provided in Clauses 9.2 and 9.4 the Company does not accept any liability for business losses such as loss of revenue, business, contracts, anticipated savings or profits, whether or not such losses are direct or indirect and whether or not the Company has been advised by the Buyer of the possibility of such potential risk.
 - 9.6 If the Buyer is a consumer, the Buyer's statutory rights are not affected by these terms and conditions.
 - 9.7 All Goods supplied by the Company are warranted free from defects for 12 months from the date of purchase, unless otherwise stated. Full terms of the warranties given by the Company are contained on the Company's website. Defects in the Goods arising from undue wear and tear or due to damage will not be covered under warranty.

10. MATTERS OUTSIDE THE COMPANY'S REASONABLE CONTROL

The Company shall not be liable to the Buyer if the performance of any of its obligations is delayed or prevented by any matter outside the Company's reasonable control. Such matters include, but are not limited to, fire, flood, lightning, extreme weather conditions, industrial disputes of any kind, actions of local or national government, war, acts of terrorism or vandalism, power outages.

11. CANCELLATION

- (Clause 11.1, 11.2 and 11.3 only applies to Buyers who are consumers and are purchasing an individual product)
- 11.1 The Buyer may cancel an order by sending a written request to the Company at any time up to receipt of the Goods and within 7 working days thereafter beginning with the day after the day on which the Buyer received the Goods.
 - 11.2 If the Buyer cancels an order, the Buyer must return the Goods during business hours, carriage paid and in perfect condition, to the Company. If the Buyer fails to return the Goods within a reasonable period the Company will charge for the cost of returning or collecting the Goods.
 - 11.3 If the Buyer cancels in accordance with this clause, the Company will refund all sums paid except those under Clause 11.2.
 - 11.4 For all other purchases of more than one product and in every case where the Buyer has specified a product not illustrated in the Company's catalogue, website including all bespoke items, the Buyer may not cancel the order after the order has been received and confirmed by the Company.

12. RETURNS

- (This clause only applies to Buyers who are consumers and have purchased an individual product)
- 12.1 If the Company has extended credit to the Buyer, the Buyer may elect to have the option of returning the Goods within 14 days of receipt of the Goods provided that the Buyer notifies the Company at the time of placing its order that it wanted this option.
 - 12.2 If the Buyer wishes to return the Goods under Clause 12.1 it must notify the Company immediately by fax or e-mail and return them to the Company within 14 days of receipt.
 - 12.3 In all cases (under Clauses 12.1 and 12.2) where Goods are to be returned, the Buyer must first telephone the Company to obtain a Returns Note and Number. Goods must be returned during business hours carriage paid in perfect condition in their original packaging with the Delivery Note and Returns Note enclosed. The Company will not refund the outward carriage charge nor pay for the cost of return.

13. GENERAL

- 13.1 Each right or remedy of the Company under the Contract is without prejudice to any other right or remedy of the Company whether under the Contract or not.
- 13.2 If any provision of the Contract is found to be unenforceable it shall to the extent of such unenforceability be deemed severable and the remaining provisions of the Contract shall continue in full force and effect.
- 13.3 Any waiver by the Company of any provision of the Contract by the Buyer will not be deemed a waiver of any subsequent breach or default.
- 13.4 This Contract shall be governed by English law subject to the exclusive jurisdiction of the English courts.
- 13.5 Terms of business relating to e-commerce are given on the Company's website.
- 13.6 The Company may transfer information about the Buyer to the Company's bankers for the purposes of obtaining credit insurance, for credit reference purposes, credit control, or protecting the Company's interests. The Company will provide the Buyer with details of the Company's bankers on request.
- 13.7 As an environmentally responsible Company, the Company expects that the Buyer will dispose of any waste associated with the Company's products in accordance with best practice and if the Buyer is unable to do so for the Buyer to contact the Company.
